

Luncheon Seminar

Advancing EUS from Diagnosis to Guiding Therapy

In association with
HITACHI
Inspire the Next

TaeWoong Medical Nih-S™ SPAXUS™ Stent

Date: April 13th (Sat), 2019
Time: 12:20–13:10
Venue: Room B (Kiso)
Chairperson: Prof. Atsushi Irisawa, Dokkyo Medical University, Japan
Speakers: Dr. Malay Sharma, Jaswant Rai Specialty Hospital, Meerut, Uttar Pradesh, Jaypee Hospital Noida, Uttar Pradesh, India
Dr. Saurabh Gupta, Concord Hospital, Liverpool Hospital and Sydney Adventist Hospital Australia

1. The Role of Diagnostic EUS in Pancreato-Biliary Disease (Dr. Malay Sharma, India)

Dr. Sharma speaks about the role of an excellent ultrasound image quality, maneuverability and FNA/FNB experience with new Ultrasound Video Gastroscope EG38-J10UT.

2. Novelties in EUS-guided therapy (Dr. Saurabh Gupta, Australia)

Dr. Gupta speaks about novelties in terms of devices (e.g. for biliary drainage) and to 4.0 mm unique new therapeutic Ultrasound Video Gastroscope EUS-J10 series.

In this seminar, the audiences can discover the PENTAX Medical Ultrasound Video Gastroscope EUS-J10 line-up which is designed for optimized procedural efficiency. Together, Hitachi and PENTAX Medical provide brilliant imaging and unique features in a joint clinical solution that allows for clear visualization, successfully enabling endosonographic diagnosis and advancing therapeutic procedures for the benefit of patients.

Hosted by Asian EUS Congress / PENTAX Medical Singapore Pte. Ltd.
