Lung cancer – the lymph node stations
According to the latest IASLC classification

**EBUS**

Lymph node station 2R

Lymph node station 10R

Lymph node station 4R

Lymph node station 7

Lymph node station 10L

**EUS-B / EUS-(B)**

Lymph node station 2L

Lymph node station 11L

Lymph node station 3

Lymph node station 4L

Lymph node station 13

**Aorta**
**Superior vena cava**
**Azygos vein**

**Lymph node station 2R**
**Lymph node station 4R**
**Lymph node station 7**
**Lymph node station 10L**
**Lymph node station 11L with EBUS-TBNA**

**Lymph node station 7 with EBUS**

**EBUS**

Lymph node station 2L

Lymph node station 4L

Lymph node station 7 (LAD)

Lymph node station 10L

Lymph node station 11L with EBUS-TBNA

**Lymph node station 7**

**Lymph node station 2L**

**Lymph node station 4L**

**Lymph node station 13**

**Lymph node station 4**

**Lymph node station 14**
